Mr. W. Sankar Iyer, C.I.E., I.C.S., Secretary to Government, Finance Department, was ex-officio Secretary to the Committee.

The constitution and functions of the Committee are detailed in rules 134 and 135 of the Madras Legislative Assembly Rules.

We met on the 1st August 1939 and the 8th September 1939 to consider the Report of the Auditor-General relating to the Appropriation Accounts of the Province for the year 1937-1938 and other matters referred to us. The Hon'ble the Premier and Finance Minister was elected as Chairman of the Committee at our first meeting.

2. The last report of a Public Accounts Committee of the Madras Legislature on the Accounts of the Province related to the Accounts of the year 1934-1935 and was presented to the Legislature on the 10th November 1936. The Appropriation Accounts of the years 1935-1936 and 1936-1937 were and referred to the Public Accounts Committee but were dealt with by His Excellency the Governor in accordance with the Government of India (Consolidation and Transference) Provisional Order, 1936. The Audit Reports relating to the Accounts of the Province for the year 1937-1938, the first year of the working of the Government of India Act, 1935, were prepared by the Auditor-General and countersigned by the Auditor-General in accordance with Section 109 of the Government of India Act, 1935, and the relevant provisions of the Government of India (Audit and Accounts) Order, 1935.

The Accounts and Audit Reports received from the Auditor-General comprise two volumes printed in separate volumes, namely—

- (1) Appropriation Accounts and Audit Report, and
- (2) Finance Accounts and Audit Report.

The former deals with matters strictly within the jurisdiction of the Committee on Public Accounts as laid down in rule 135 of the Assembly Rules, while the latter deals with other matters. Both were presented to the Madras Legislature.

3. We were informed that, having regard to the constitutional changes introduced by the Government of India Act, 1935, a close community of view has been established between the Finance Department (acting under the control of the Finance Minister) and the Audit Department and that the Finance Department in this aspect of its functions acts as the executive instrument of the Legislature, apart from the Government, with authority to enforce propriety and control of expenditure. All important irregularities and cases of losses written off or wasteful expenditure are referred by the Audit Department to the Finance Department and, if the requisite sanction of the latter is accorded, the cases are ordinarily not mentioned in the Audit Report on the Appropriation Accounts, unless the action taken is, in the opinion of the Audit Department, illegal or evidently *mal fide* or contrary to the vital interests of the State.

4. The Report on the Appropriation Accounts for the year 1937-1938 deals with the audited accounts of all the expenditure of the year, both voted and charged, in the form of a separate appropriation account for each Grant, with such observations as were considered necessary as a result of audit investigation. It includes also any comments deemed necessary upon the result of the audit of the trading, manufacturing and profit and loss accounts and

balance sheets kept in respect of Government commercial or quasi-commercial concerns, and upon the classification of accounts of receipts and of stores and stock.

5. We were furnished with notes prepared by the departments of the Secretariat on the following points mentioned in the Appropriation Accounts and Audit Report:—

- (i) Financial irregularities.
- (ii) Expenses over sums shown in the authenticated schedule of authorized expenditure.
- (iii) Extraneous or unnecessary re-appropriations and large variations between appropriations and actuals; and
- (iv) Other matters.

All these points have been discussed by us and the Accountant-General has present at our deliberations. We desire to express our appreciation of the assistance and advice rendered by him at both the meetings.

The Secretaries of the departments of the Secretariat concerned (and heads of departments also in some cases) were present when the subjects concerning them were considered by us.

We have examined in detail the several instances of financial irregularities brought to our notice and are satisfied that in the majority of cases the action taken by the Government was adequate.

6. Our specific recommendations on the more important points discussed by us are mentioned in the next section of this report, while other items are included in Appendix A.

SECTION II.—COMMENTS ON APPROPRIATION ACCOUNTS—GENERAL SURVEY OF THE FIGURES.

7. The following table shows the total grants, voted and charged, as compared with the total expenditure out of these grants:—

(i)	Grants voted	Grants charged	Total grants	Total expenditure	
				(ii)	(iii)
	Rs.	Rs.	Rs.	Rs.	Rs.
Total	1,619,471	29,19	1,648,66	1,648,66	1,648,66
Charged	234,26	234,26	234,26	234,26	234,26
Total	1,648,66	29,19	1,648,66	1,648,66	1,648,66

Voted grants—Savings.

8. Against a total civil grant of Rs. 1,648,66 lakhs, the actual expenditure amounted to Rs. 1,602,21 lakhs, resulting in a net saving of Rs. 46,45 lakhs or 2.8 per cent.

Savings occurred in 53 out of 10 voted grants. A list of the more important ones is given below:—

	Rs. lakhs.	Rs. lakhs.
I. Land Revenue	200	200
VII. Transport	3,85	3,85
IX. Legislative Bodies	3,33	3,33
XII. Army and Air Force	2,75	2,75
XVIII. Agriculture	2,45	2,45
XXI. Industries	1,41	1,41
XXIV. Civil Works—Works	1,40	1,40
XXVI. Civil Works—Works and ..	2,75	2,75
XXVII. Capital outlay on irrigation	2,75	2,75
XXVIII. Capital outlay on electric schemes	2,75	2,75
XXIX. Capital outlay on Civil Works	2,75	2,75
XXX. Estimated value of petroleum	2,75	2,75
XXXI. Loans and Advances (including ..)	2,75	2,75
	2,75	2,75

The major heads and sub-heads under which savings occurred are given in the Accountant-General's Appropriation Accounts.

Voted grants—Excesses (Paragraph 6 of the Accountant-General's report).

9. The grants voted by the Legislative Assembly in 1930-1935 were expended in the following four items and the excesses have to be repaid by the Assembly under rule 132 of the Madras Legislative Assembly Rules.

Grant.	Total sums expended up to 31st May 1935.	Amount.	Excess.
(i)	(ii)	(iii)	(iv)
IX. Provincial Excise ..	21,41,000	22,11,806	21,806
XV. Education ..	1,89,47,193	1,98,47,158	58
XXVII. Pensions ..	1,00,000	1,41,600	1,41,600
XXVIII. Capital outlay on Public Works and Development ..	1,30,000	5,18,448	54

We have carefully examined the reasons for the excess expenditure under the four grants and deal with them below.

10. *Excess under Grant II—Provincial Excise—(Paragraph 6 and page 25 of the Accountant-General's report).—*

	Rs.
Final grant	31,90,000
Actuals	32,11,806
Excess	21,806

The excess is chiefly made up of an excess of Rs. 15,882 under "Pay of establishments" and Rs. 6,480 under "Allowances and Honorary" under "District Executive Establishments—Ordinary work." The excess under "Pay of establishments" was due to a large number of sub-inspectors and peons who were withdrawn from the Salem district as a result of the introduction of Prohibition proceeding on leave contrary to anticipations before joining their new stations. The increased expenditure under the head "Travelling Allowance" was mainly due to two factors. One was the greater expenditure than had been originally provided for on the transfer of the Excise staff from the Salem district on the introduction of Prohibition in that district. Thirty-two sub-inspectors, some clerks and 179 peons were transferred from the Salem district most of them being allotted to other subdivisions. As it was decided that sub-inspection was to be abolished in the Salem district, some additional transfers had also to be made in the subdivisions to which the sub-inspectors were allotted. The other factor was the payment of arrears of travelling allowance in the Walahia subdivision in the latter half of 1930-1935.

We recommend that a demand to cover the expenditure in excess of the amount voted be presented to the Legislative Assembly.

11. *Excess under Grant XV—Education—(Paragraph 8 and page 35 of the Accountant-General's report).—*

	Rs.
Final grant	1,89,47,190
Actuals	1,90,47,158
Excess	58

The excess expenditure is the net result of a number of minor savings under certain heads and increases under other heads under the Grant as specified in column (4) on pages 95-98 of the Appropriation Accounts.

We recommend that a demand to cover the expenditure in excess of the amount voted be presented to the Legislative Assembly.

22. *Excess under Grant XXVII—Famine—(Paragraph 6 and page 165 of the Accountant-General's report).—*

	Rs.
Final grant	1,60,000
Actuals	3,45,483
Excess	2,45,483

The excess was due to larger expenditure on famine relief operations. It was originally intended that the entire famine expenditure should be financed from the Famine Relief Fund, but owing to an improvement in the revenue position, the Government decided not to make any transfer from the Famine Relief Fund and this has resulted in an excess over the grant. The excess is not attributable to defective budgeting, but due to the later decision of the Government to meet the expenditure from revenues instead of from non-revenue sources as originally contemplated in the budget.

We recommend that a demand to cover the expenditure in excess of the amount voted be presented to the Legislative Assembly.

23. *Excess under Grant XXXII—Capital Outlay on Industrial Development—(Paragraph 6 and page 161 of the Accountant-General's report).—*

	Rs.
Final grant	1,50,500
Actuals	1,53,443
Excess	84

Till the end of the year 1938-1939 the Government Cochinon Plantation in the Anamalais was treated as "a development" and all expenditure of a capital nature incurred on it was debited to "72 Capital Outlay on Industrial Development—a. Cochinon" and all receipts were shown as a miscellaneous appropriation under "b. Debits Receipts and Reversions on Capital Account" under the same head. The excess of Rs. 84 in 1937-1938 has occurred as a result of a small shortage in anticipated receipts from the sale of bark gathered from the plantation in that year.

We recommend that a demand to cover the expenditure in excess of the amount voted be presented to the Legislative Assembly.

24. *Charged appropriations—Excesses—(Paragraph 7 of the Accountant-General's report).—Excesses over charged appropriations occurred under the following three grants involving a total sum of Rs. 4,153:—*

Name of grant.	Amount of excess.	Rs.
III. Stamps	20
IV. Forest	1,009
XXIX. Stationery and Printing	3,024

The excesses are small and the reasons have been explained to our satisfaction.

We have no remarks to offer.

25. *Invalid or unnecessary appropriations, etc.—(Rule 135 (i) of the Madras Legislative Assembly Rules requires that we should bring to the notice of the Assembly all expenditures which the Finance Department has requested should be brought to notice and every case in which we are not satisfied—*

(a) that the money shown in the accounts as having been disbursed, were rightly available for and applicable to the service or purpose to which they have been applied or charged;

(b) that the expenditure conforms to the authority which governs it; and

(c) that every reappropriation has been made in accordance with such rules as may be prescribed by the Governor acting in his discretion or by the Finance Department, as the case may be.

We are glad to note that there was only one such case which is explained in the next paragraph.

35. Grant X—District Administration and Miscellaneous—33. Other Taxes and Duties—Reimbursement of expenditure—(Page 7, paragraph 9 and page 52 of the Accountant-General's report).—When submitting in November 1937 the employment of staff for the performance of work connected with the Madras Regulation of Sale of Cloth Act, 1935, the Government stated that a supplementary vote of the Legislature would be obtained in due course, as the expenditure on the staff was a "new service," but this was not done. The Accountant-General has observed that regularisation of the expenditure by the Legislative Assembly is required.

The position was explained to us as follows:—

The expenditure on account of the staff was on a "new service." The Accountant-General was, therefore, authorised to charge the expenditure as said pending the provision of funds later by obtaining a supplementary grant from the Legislative Assembly. By so doing, however, no steps were taken to obtain the supplementary grant. An expenditure of Rs. 1,618 was incurred on account of this staff under "Grant X—District Administration and Miscellaneous." This has to be regularised.

Sections 73 to 81 of the Government of India Act, 1935, deal only with original and supplementary grants and the Act is silent as to "excess" grants, that is, as to the regularisation or post facto by the Legislature of any excesses in the actual expenditure in a financial year over the authorised grants for that year, both original and supplementary. The only provision which deals with "excess" grants is rule 132 of the Legislative Assembly Rules, and that rule applies only to cases in which some provision has been made for the particular service in question in the first instance whether in the original grants or in a supplementary grant, and not to cases for which no grant has been made at all. There is thus no rule that applies to the case in question. The practice of the Central Legislature in such circumstances is to reword the excess expenditure by expanding the resolution of the Legislative Assembly "that the report of the Public Accounts Committee be taken into consideration" by adding the words "and that the Assembly do approve of the expenditure of Rs. _____ on _____."

We were requested to advise whether the procedure followed by the Central Legislature as indicated above might be adopted.

We approve the procedure suggested.

37. Grant X—District Administration and Miscellaneous—General Administration—Miscellaneous—Grant for Rural Development—Non-expenditure of revenue (Page 9, paragraph 9 (b) and pages 53-54 of the Accountant-General's report).—The Accountant-General has drawn attention to the non-expenditure of savings according to Rs. 1.45 lakhs under the grant for rural development. The original grant under this head was Rs. 7.52 lakhs, of which Rs. 4 lakhs was recovered, thus reducing the final grant to Rs. 3.52 lakhs, out of which only Rs. 2.45 lakhs was actually utilised, leaving a saving of Rs. 1.45 lakhs. The Accountant-General has remarked that the large saving under this head as compared with the budget was attributed to slow progress of work, this being the first year of the administration of the grant under revised conditions which included a stipulation for the expenditure of the funds on a contributory basis, and that the difficult task of collecting contributions from villages, the determination of the nature of works of public utility, and the preparation, settling and sanction of plans and estimates for works contributed to the late commencement and execution of works and resulted in the savings under the sub-head.

The position was explained to us as follows:—

The Rural Development grant was originally spent on a non-contributory basis. Early in 1937, the Government of India held a view that the advances financed from the grant should be contributory, that is, the villages which were to benefit from the grants should themselves make a contribution of not less than one-third either in cash or in kind, including labour, on a condition of receiving the remaining two-thirds. Thus the execution of any scheme and the spending of the grant were dependent on the ability and willingness of the villagers to make the necessary contribution. The actual expenditure at the end of December 1937 was reported to be about Rs. 1,50,000 and the expenditure during the quarter ending March 1938 fell below the anticipated amount by 25 per cent.

We hope that closer budgeting will be possible in future and that necessary steps will be taken for the surrender of any savings in time.

18. Grant XXIV—Civil Works—Works and Grant XXIV—Capital outlay on Civil Works—Overbudgeting (Page 8, para graph 8 and pages 151-152 and 203-204 of the Accountant-General's report).—The original appropriation under Grant XXIV—Civil Works—Works was Rs. 27.03 lakhs and the final appropriation was Rs. 30.36 lakhs while the expenditure was Rs. 31.65 lakhs. The Accountant-General has remarked that modifications in the original appropriation involving a net surrender of rupees 5.73 lakhs, i.e., about 21 per cent of the original appropriation were made during the year.

In respect of Grant XXIV—Capital outlay on Civil Works, the original appropriation was Rs. 16.73 lakhs while the actual expenditure was Rs. 18.07 lakhs. The Accountant-General has remarked that modifications in the original appropriation involving a net surrender of Rs. 2.32 lakhs, i.e., about 13.8 per cent of the original appropriation were made during the year and that closer budgeting would appear to be called for.

We were informed that the question of avoiding overbudgeting was examined last year in connection with the Appropriation Accounts for 1935-1937. The Chief Engineer then stated that instructions had been repeatedly issued in recent years to the officers of the department to guard against overbudgeting. He also stated that he had directed the officers to be as accurate as possible in budgeting and to propose only a notional provision in the case of all works for which land had to be acquired and to provide not more than Rs. 1,000 or Rs. 2,000 for works not technically sanctioned at the time of budgeting. The budget of 1935-1936 was the first budget in which the instructions could have been observed. There was certainly an improvement in the year 1935-1936 as the savings under "Original Works" during that year were 15 per cent under "80 Civil Works" and 21.6 per cent under "41 Civil Works not charged to Revenue" as against 24.6 per cent and 45.6 per cent respectively, in the year 1933-1937. It is anticipated that the percentage of savings, if any, in 1938-1939 will be smaller. The Government have, however, drawn the Chief Engineer's attention to the Accountant-General's remarks and asked him to impress once again upon the officers of his department the necessity for closer budgeting. The Chief Engineer has stated that he has already issued a circular memorandum to the Superintending Engineers instructing them not to be over-optimistic in framing their budget estimates and telling them that disciplinary action will be taken in all cases of proved overcommitment. The results of the instructions may be watched for another year before taking any further action in the matter.

We approve the action taken and await the results of the instructions issued.

19. Grant XXIV—Civil Works—Grants-in-aid—Grants to local bodies for roads and bridges (other than village committees)—Secretary of Budgeting (Page 9, paragraph 8 and pages

260/165 of the Accountant-General's report.—The Accountant-General has remarked that closer budgeting would appear to be called for in respect of the items referred to above. The original grant was Rs. 6.25 lakhs which was increased to Rs. 7.45 lakhs by supplementary. The actual expenditure was Rs. 5.55 lakhs. Thus, there was an excess of Rs. 6.17 lakhs over the expenditure originally budgeted for. The increased expenditure was explained to be due to the sanctioning of additional grants to certain local bodies for works in progress and to certain others for flood damage repairs to roads on account of heavy rains in November 1937. As this expenditure could not have been anticipated and the works had to be taken up and executed very urgently, it was not possible to fit the estimate accurately beforehand.

We consider that closer budgeting is desirable.

20. Grant XXXVII—*Loans and Advances bearing interest*—*Settled under loans to the Madras Corporation* (Page 8, paragraph 8 and page 207 and 209 of the Accountant-General's report).—The Accountant-General has brought to notice that there was a saving of 24 per cent in the final grant for all loans and advances provided for under Grant XXXVII and that this was mainly due to the saving under the sub-head A. A. (Provisionary Corporation, Madras).

The original appropriation under "Loans and Advances by the Provincial Government—Loans to Municipalities, Port Ponds, etc., Provisionary Corporation, Madras," was Rs. 10.26 lakhs. A total of Rs. 8.75 lakhs was resumed, leaving the final appropriation of Rs. 4.61 lakhs, out of which Rs. 5.95 lakhs were actually utilized. Thus, there was a saving of Rs. 0.35 lakh.

The total provision in the budget estimate for 1937-1938 for loans to the Madras Corporation included a sum of Rs. 5.75 lakhs for drainage works. The Commissioner subsequently stated that no loan was required for drainage works in that year. The amount of Rs. 5.75 lakhs was therefore surrendered. The Commissioner was informed at the same time that the provision made in the budget for loans to the Corporation at its instance should not be allowed to lapse and that, if the Corporation failed to draw any such amount on the due date on which the Government would charge interest from the date on which the loan should have been drawn.

Provision was also made in the budget for 1937-1938 for a loan of Rs. 0.55 lakh to the Corporation for the construction of public flush-out latrines, but this amount was not disbursed as the Corporation found the necessary funds with the permission of the Government from the current balance of loans lying with it.

In order to minimize lapses in the provision for loans, the system of making lump-sum deductions in the budget provision has been extended to the loans to the Madras Corporation also with effect from the year 1935-1936.

We approve the action taken.

Matter brought to the notice of the Public Accounts Committee at the instance of the Accountant-General.

21. Maintenance of production and trading accounts in certain forest divisions—*Discontinuance*.—The Chief Conservator of Forests proposed the abolition of production and trading accounts maintained in certain divisions of the Forest Department. The Accountant-General suggested that the Government might decide in consultation with the Public Accounts Committee whether these production and trading accounts should continue to be prepared.

In support of his proposal for the abolition of the system of maintenance of the production and trading accounts the Chief Conservator of Forests gave the following reasons:—

(a) The Forest Department is being treated as a service department from 1st April 1937. The production accounts were introduced when the department was considered to be quasi-commercial in character; now that it is recognized that this was a

The Assistant General has pointed out that large sections of work done in a hasty manner under each of the Grants VII and XXXI relating to irrigation where only nominal estimates were made for projects in progress. It was explained that, in regard to that of the salt lands where drainage had commenced, the land officers could not determine the extent of the drainage and that a large portion of the amount was necessary and allocated to irrigation and drainage—viz., drainage. After a consideration of the question of setting off a method of fixing the provision for irrigation works in the budget as in annual estimates, the Government in consultation with the Chief Engineer for Irrigation decided that in respect of expenditure in irrigation a percentage deduction for probable savings of 10 per cent and 10 per cent respectively should be made, that a general note should be provided under the budget head "large addition for project of irrigation" and that the provision should be reduced by 10 per cent. The budget estimates for 1958-59 have been prepared on the above basis. The Chief Engineer has also confirmed the Departmental Engineers in stating that they observe these reductions strictly in making their estimates.

We take the notes taken and have no remarks to offer.

The Assistant General has pointed out that the large section made has been approved but for the additional Rs. 40 (3) lakhs provided under the sub-head "re-appropriation during the year." It was pointed out to us that the difference between the final revised appropriation and actual expenditure was due to large amounts which could not be known, being adjusted in the credit of this head and were anticipated at the time of final estimates.

General.

The Assistant General has observed that the re-appropriation of Rs. 20 lakhs Civil was sanctioned by the Government during the past month report for annual development work (viz., Expenditure on Civil Works) on the Civil Works, Public Works, the object being that the portion of the expenditure incurred from the Central Government's sanctioned money in the Public Works should be taken as a sub-section of expenditure. But according to the government procedure, an amount equivalent to the expenditure should be taken in the revenue side and the adjustment was accordingly made. The amount under the sub-head was brought about by the re-appropriation.

When appropriations issued by a Provincial Government is returned to full it is sent from the Central Government the necessary provision is to adjust the necessary in relation of expenditure in order to avoid the voting of the same expenditure by two Legislatures, namely,

The Civil and the Provincial Legislatures. In accordance with the practice, the ordinary maintenance was mentioned by the Finance Department as account of the Civil Department in the expenditure on the Experimental Road No. 20 on the Great Northern Trust Road. There is, however, a ruling of the Auditor-General of which the Finance Department was not conscious, that a necessary account of expenditure should be given in the Civil Department account. It is, therefore, as a matter of expediency, to be adjusted as a receipt and credited under the head "XXIV—Civil Works—Transfer from the General Road Fund." This ruling came in the month of the December only after the year 1892-1893 had closed.

Page 10. Defective Budgeting under Grant XXV—Civil Works—Entertainment, Tools and Plans—40 Civil Works—E. H. A. Entertainments charges payable to Government, Departments and others.

The recovery of expenses charged in the Formerly Excluded Account has been charged in a series of bills under "40 Civil Works—Entertainment—40 Superintending Engineers—5 Charges recoverable from Government and others under the sub-head "5 Establishments—E. H. A. Entertainments—40. Formerly Excluded Account—5. Charges payable to Government, Departments and others," but no provision was made under these two sub-heads. The Accountant-General has pointed out that as the expenditure in account of the Formerly Excluded Account has to be attributed separately both in the budget and in the accounts, the non-inclusion of expenses charged, attributed in the correct position and being shown under these two sub-heads. The reason for not making the necessary provision under these sub-heads was explained to us, and the defects pointed out by the Accountant-General have since been met with from 1894-1895.

We have no remarks to offer.

GRANT XXVI—CIVIL WORKS.

Page 8, paragraph 1 and page 100-101.

Grant XXVI—Civil Works—Construction—F. Expenses for water-supply and drainage schemes executed by the Public Works Department.

The Accountant-General has brought in under the year 1894, in spite of the adoption of the system of lump-sum payments for probable savings, large savings have occurred under this sub-head.

It was explained to us that as the recommendations of the Chief Engineer (General, Buildings and Roads), a grant of Rs. 40 lakhs was provided in the budget for 1891-1892 after deducting a sum of Rs. 5 lakhs for probable savings for water-supply and drainage schemes estimated by the Public Works Department. The total appropriation was Rs. 131 lakhs and the actual expenditure incurred amounted to Rs. 121 lakhs. The reason given by the Chief Engineer (General, Buildings and Roads) for the reduction in the expenditure was that the savings were as follows:—

(1) The cost of Rs. 4,000 provided in the budget for the Public Works water supply scheme could not be drawn in the work budget for the Public Works water supply scheme, as the expenditure of Rs. 4,000 was not required for the scheme.

(2) A grant of Rs. 8,000 provided for the Public Works water supply scheme was not required for the scheme, as the work made great progress in the working season and an extension of time had to be granted in order to the end of the working season.

	GRANT XXVII—FARMER.	
11 Page 3, paragraph 9 (b).	Re-appropriations allowed various early as in terms of requirements under Grant XXVII—FARMER	The Accountant General has observed that the large surplus under "Pay of establishments," "Maintenance relief" and "Other expenditure" would not have accounted for the additional funds provided under these sub-heads by re-appropriations during the year. We were informed as follows:—

Pay of establishments and gratuities relief.—While the Board of Revenue submitted proposals in February 1918 for additional appropriation under the above sub-heads by means of re-appropriation there was failure in the Policy, Nampagar and Koorood districts and conditions were getting worse. Consideration was given to the matter and the expenditure on pay of establishments and gratuities relief in villages was therefore considerably below the estimate.

Other expenditure.—The expenditure on relief of distress due to natural calamities, such as floods, fire, cyclones, etc., is not from the revenue under "Other expenditure". Provision has always to be made for expenditure on such calamitous calamities and services provided by some of the public like individuals when it was not found necessary to spend the amount provided under this head.

We have no remarks to offer.

GRANT XXXIII—CAPITAL OUTLAY ON FARMER SCHEMES.

12 Page 8, paragraph 10, sub-paragraph 1 (b).	Over-budgeting under Grant XXXIII—Capital outlay on various schemes	The Accountant General has observed that in spite of the success of the various schemes, large amounts which up to 1914 per cent in the first appropriation under the charged portion of the head and 12 per cent on the total portion were not under this head. It was explained to us that factors contributing to the surrender of large sums could not be known at the time when the budget estimates were framed. It was also explained that the completion of the Papamur Hydro-Electricity Scheme Project which is now under construction, the Electricity Department would be able to give such the scope of several working conditions and that it was hoped that the budgeting for the department would have improved greatly by then.

12 Page 8, paragraph 10, sub-paragraph 1 (b).	Over-budgeting under Grant XXXVII—Loans and Advances bearing interest—S.A. 3. Loans under the Appropriation Loans (Hindu) Amendment Act, 1915.	The Board of Revenue originally made a provision of Rs. 15 lakhs for the year 1917-1918, on the assumption that the scheme for the 1916-17 loans for the relief of indebtedness would be working on the scheme throughout the year and that a monthly expenditure of Rs. 12,000 on an average would be incurred in each district. The Government, however, anticipated a larger expenditure and so raised the provision to Rs. 18 lakhs in June 1917. When submitting the Budget Estimates for 1918, the Board proposed the revised estimate for 1917-1918 at Rs. 18 lakhs on the basis of the assumption referred to above and on the basis reported by the Collectors. The scheme was suspended from January 1918 and as the funds raised against the scheme were reduced to Rs. 12 lakhs. The final appropriation was subsequently fixed at Rs. 12 lakhs.

APPENDIX B.

(See paragraph 22 of the Report.)

List of advances of new expenditure treated as new services during the years 1931-1934 and 1935-1939 and of doubtful cases which the Government after consideration decided not to treat as new services.

NOTE BY THE FINANCE DEPARTMENT.

With reference to paragraphs 3 and 4 of the Introductory Note to the pamphlet *Findings of the Madras Public Accounts Committee on the interpretation of the term "New Service,"* list of advances of new expenditure treated as new services during the years 1931-1935 and 1935-1939 (List I) and of doubtful cases not treated as new services during those years (List II) are placed before the Public Accounts Committee.

2. The advice of the Committee is requested as to—

(1) whether the items in List I were correctly treated as new services, and

(2) whether the Government's decisions not to treat the items in List II as new services were correct.

LIST I.

Cases of New Services not covered by existing Findings—1931-1939.

Item of expenditure	Reason for treating as a "new service"
Grant II. Provincial Emancipation— (1) Appointment of a Probation officer in Salem district.	Expenditure of this kind had not been covered in the past—see also item (3) infra.
Grant IX. Legislative Salaries— (2) Expenditure connected with the proposed dissolution of the House (the Speaker is studying the working of the British Parliament, etc.)	Though permanent officers of the Legislature (the former Secretary and the present Deputy Secretary) had been deputed to England for the purpose, no preceding officer of a Chamber of the Legislature had been so deputed in the past.
Grant X. District Administration and Development— (2) Appointment of a Special Development Officer with staff in the Salem district to study thoroughly the social and economic problems arising from Probation.	No staff had been employed for such general purposes in the past—Compare findings under (5) on page 8 of the pamphlet—see also item (3) supra.
Grant XIV. Electricity— (4) Establishment of a Special Reserve Fund for the Pyram Electricity System, in addition to the Depreciation Fund.	The Scheme Report contemplated only the establishment of a Depreciation Fund. A special Reserve Fund in addition to provide for extraordinary and unforeseen accidents due to electrical causes, such as damage by storms, cyclones and other calamities, was not originally contemplated.
Grant XVII. Public Health— (4) Establishment of a fund for the development of rural water-supply.	No such fund for meeting ordinary expenditure, except the Madras Finance Relief Fund, had been established previously. The Finance Relief Fund was constituted under an Act of the Legislature. It was considered that the specific purpose of the Legislature should be observed for the establishment of the rural water-supply fund.
Grant XXIII. Miscellaneous Department— (3) Boarding grant for a girl's hostel at Perambalur Government for girls of the scheduled classes.	The "hostel" is not a regular hostel for girl-student teachers, as most of the girls make use of the hostel only during the day time. It is not meant to establish a boarding grant for a hostel in such circumstances, but this grant was sanctioned as a special case. The grant was also made to an institution for girls; the grant was specifically provided in the Budget—Compare Finding 14 (1)—disposition grants to educational institutions not specifically provided in the Budget on page 7 of the pamphlet.

*Costs of New Services not covered by existing Ratings—
1937-1938-1944.*

Item of expenditure, Grant XIII, Electricity and Heating—	Reason for existing rate being wrong
(7) Compensation to a reader in the Department from time when absent from service.	Through the High Court and the Privy Council after 1938, the Rating had to be fixed, the Department, as a matter of grace, decided to give him an amount equal to the estimated value of the services for which he would have been eligible if on the date of retirement he had been placed in the maximum qual- ifying service for pension—Compare Rating (1) and (2) under XIV. Hence income same as page 18 of the pamphlet.

Costs of New Services not covered by existing Ratings—1938-1943.

Grant VI, Changes on account of Motor Vehicle Allowance.	Through these funds were set up in pursuance of the Motor Vehicle Control Act, 1938, the Department was not aware of the expenditure incurred —Compare Rating in II on page 18 of the pamphlet.
(8) Expenditure on account of the Central Road Traffic Fund and Street Traffic Funds.	

*Grant X, District Administration and
Maintenance—*

(9) Free supply of beds and clothing to Kypri in the Family Dis- tributed Areas (Army troops).	Such free supply had not been made in the past.

Grant XV, Education—

(10) Dependent on the officers of the Education Department for a short course of training at Warley.	Training at Warley was a new course of training which the Department was not aware of.
(11) Grants to the Education Officer South Western India for Training Residential Institute.	Training in a particular language is a special course if unusual, and the pamphlet on which the grant was given was one which had not been given grants in the past.

Grant XVI, Federal—

(12) Construction of the Barley (high- ground) Federal School and a Federal College.	The opening of a new institution—Com- pare Rating (1) on page 11 of the pamphlet.
--	---

Grant XXI, Education—

(13) Dependent on students in Warley for training in hand paper making and oil painting.	These courses were new studies of indus- trial training.
(14) Full gratuity paid for training classes of hand paper making.	Grants not specifically provided in the Budget—Compare Rating (1) and (2) under (3) on page 2 of the pamphlet. Moreover only half grants were usually given whereas full grants were given in these cases.
(15) Detailed survey of the slum residential industry.	A survey of this nature had not been conducted in the past—Compare Rating under (4) on page 2 of the pamphlet.
(16) Grant of a gratuity to the family of a deceased Native who was killed for saving some slumming industry with some slum.	Expenditure of this nature had not been incurred in the past—Compare Rating under XIV on page 18 of the pamphlet.
(17) Grant to the Government (Indian Workers' Advice for the Unemploy- ment Labour Conference at Guntur) to enable him to study labour conditions and the trade union movement in England.	No grant of this kind in a new effort for purposes of study outside India had been given in the past.
(18) Establishment of a laboratory and workshop for the Provincial Road Engineer.	This was an institution newly opened— Compare Rating (3) on page 11 of the pamphlet.

*Costs of New Services not covered by existing Billings—
1938-1939—cont.*

Items of expenditure.

Reason for treating as a "new service."

Grant XIV. Civil Works—Establishment and Tools and Plant—

- (18) Employment of additional staff in the office of the Chief Engineer (General, Billings and Road).

The additional staff comprised—

- (1) A mechanical qualified general assistant.

- (2) One qualified staff, the appointment of which exceeded Rs. 2,000 per annum.

Though the employment of such staff as that mentioned above is not with a normal income of work but not been treated as a "New Service" in the past, the Government decided that the approval of the Legislature should be obtained for such proposals by the presentation of a supplementary statement of expenditure.

- (19) Compensation to an architect for the sub-architect expenses incurred by him in consequence of the lapse of employment held out to him by the Government in accordance with the proposed restriction of a Parliament House.

Though the architect had no legal claim, the Government recognized that he had made efforts to acquire special knowledge and experience and paid him Rs. 2,000 as compensation as a claim of 2700—Compare Billings under XIV on page 18 of the pamphlet.

Grant XXX. Miscellaneous—

- (21) Expenditure on feeding and sheltering in their houses destitute refugees from Burma, living at the ports of this Province.

Expenditure on repatriation of refugees from outside India had not been included in the past from Provincial funds.

- (22) Expenditure for the conduct of elections under the Madras Village Panchayat Act, 1936.

Though the Act was passed by the Legislature, it was not part of the expenditure included under the Billings in II on page 13 of the pamphlet.

LIST II.

Deadly items relating to the years 1937-1938 and 1938-1939 which the Government, after consideration, decided not to treat as new services.

(1) *Purchase of shares in private companies under the State Aid to Industries Act.*—In October 1937 the Government authorized the Director of Industries and Commerce for the first time to subscribe for shares to the extent of Rs. 17,450 in the Kollegal Silk Filatures, Ltd. This method of State Aid is contemplated in section 6 of the Madras State Aid to Industries Act, 1925. Since this was the first case of the kind, the Government considered the question whether the expenditure should be treated as being on a new service; they decided that the object of the expenditure was not a new service, since the Act contemplated several forms of aid, of which subscribing for shares is one.

(2) *Courts of Inquiry and Panels of Conciliation under the Trade Disputes Act.*—Section 2 of the Trade Disputes Act, 1929, empowers the Government to appoint a Court of Inquiry or a Board of Conciliation for the settlement of a trade dispute. Since 1929 such Courts and Boards have been appointed frequently and it has usually been necessary to appoint them at short notice. The Government decided that the appointment of a Court or Board under the Act is not a new service, since such appointments are incidental to the administration of the Act and stand on the same footing as the appointment of a departmental committee to investigate matters relating to a particular department or as of a court of enquiry to enquire into the conduct of a Government servant, which is not treated as a new service.

Recommendation of the Committee.

We agree with the Government's decisions as regards the items in List I and item (1) in List II. We consider that item (2) in List II might more properly have been treated as a new service in the year in which the expenditure was first incurred.

Special Interest.—Those persons will be granted by Collectors in consultation with the officers of the Excise Department on such terms and conditions and for such periods as the Collector may in each case determine when the circumstances are such as not to affect the issue of licenses of any of the above description.

5. Any two or more of the Names detailed above may be granted to the same person for the sale of liquor in the same or attached premises, provided that the stock and accounts of transactions under each Name are maintained separately.

¹⁰ B. No premium shall be used for the sale of liquor unless they have been approved by the Collector.

5. All houses shall maintain rock bins, accurate and consistent as may be prescribed from time to time and forward to the Collector statistics showing separately the consumption of the various kinds of fuel.

30. All Systems other than seasonal and special Systems will be current for the official year, i.e., from the 1st April of each calendar year until 31st March of the following calendar year.

21. The Collectors will report to the Commissioner before the commencement of each official year the number and description of the licenses detailed above, other than seasonal and special licenses, which they propose to issue for that official year. No additional licenses, other than an occasional or special license, shall be issued, during that official year without the previous permission of the Commissioner.

19. The fixed fee prescribed for each housing detail of above shall be paid in full in advance on the first day of the month. The Collector may demand from a householder, whenever he deems it necessary to do so, in addition to the fixed fee a deposit in cash or Government promissory notes as security for the due payment of the monthly allowance due.

11. For the assessment of the trade, the Collector will, as far as possible, receive and display all applications for P.L. S licenses to be received during an official year before the rights to sell under a license—P.L. S or P.L. S by license is sold for that official year.

(5) The constituted members of the Board shall hold office for three years, but shall be eligible for re-appointment and re-choosing.

(6) The Board may, subject to the previous approval of the Central Government, make by-laws fixing a quorum and regulating its own procedure and the conduct of all business to be transacted by it.

(7) The Board may constitute sub-committees and may appoint to such sub-committees for such periods, not exceeding three years, as it may think fit, persons for the consideration of particular matters, persons who are not members of the Board.

(8) The business of the Board may be carried notwithstanding any vacancy therein.

(9) The Central Government shall appoint a person to be Secretary of the Board and shall provide for the Board such other staff as the Central Government may deem necessary.

5. (1) The Central Government shall, as soon as may be, establish a Central Drugs Laboratory under the control of a Director to be appointed by the Central Government, to carry out the functions entrusted to it by this Act or any rules made thereunder. The Central Drugs Laboratory.

(2) The Central Government may, after consultation with the Board, make rules providing—

- (a) the functions of the said Laboratory;
- (b) the procedure for the grant of certificates of registration under this Act by the said Laboratory in respect of patent or proprietary medicines, the forms thereof and the fees payable therefor;
- (c) the procedure for providing the names of the schedule of patent or proprietary medicines when submitted to the said Laboratory under this Act;
- (d) the procedure for the submission to the said Laboratory under Chapter IV of samples of drugs for analysis or test, the forms of the Laboratory's reports thereon and the fees payable in respect of such analysis;
- (e) such other matters as may be necessary or expedient to enable the said Laboratory to carry out its functions.

CHAPTER III.

General or Miscellaneous.

7. (1) For the purposes of this Chapter the expression "standard specimen of a drug" shall signify a drug in such form that the drug complies with the standard set out in the First Schedule.

(2) The Central Government, after consultation with the Board and after giving to manufacturers of the drugs of Canada not less than three months' notice of the intention so to do, may by a like notification add to or subtract from the First Schedule, and thereupon the said Schedule shall be deemed to be amended accordingly.

8. For the purposes of this Chapter a drug shall be deemed to be a standard drug—

- (a) if it is an imitation of, or substitute for, or equivalent to a standard drug in form, colour, smell, or taste, upon its label or container the name of such standard drug is plainly and conspicuously marked or so as to reveal its true character and its lack of identity with such other drug; or

- (4) if it purports to be the product of a given or country of which it is not truly a product; or
- (5) if it is imported under a name which belongs to another drug; or
- (6) if it is an coloured, coated, powdered or polished that damage is occasioned, or if it is made to appear of better or greater therapeutic value than it really is; or
- (7) if it is not labelled in the prescribed manner; or
- (8) if its label or container or any other accompanying the drug, bears any statement, design or device which makes any false or exaggerated claim for the drug or which is false or misleading in any particular; or
- (9) if the label or container bears the name of an individual as purveyor purporting to be the manufacturer or producer of the drug, which individual no company or business or does not exist.

Prohibition of
importation

STATEMENT OF GROUNDS AND REASONS.

In order to give effect to the recommendations of the Drugs Enquiry Committee, in so far as they relate to matters with which the Central Government is primarily concerned, a Bill to regulate the import of drugs was drafted and was introduced in the Legislative Assembly in 1922. The Select Committee appointed by the Legislative Assembly was of the opinion that a more comprehensive measure, providing for the uniform control of manufacture and distribution of drugs as well as of import, was desirable. The Government of India accordingly advised Provincial Governments to invite the Provincial Legislatures to pass resolutions under section 100 of the Government of India Act, 1920, authorizing the Central Legislature to pass an Act for regulating such matters relating to the control of drugs as fell within the Provincial legislative jurisdiction. Such resolutions have now been passed by all Provincial Legislatures.

Chapter II of the Bill establishes a Board of technical experts to advise the Central and the Provincial Governments on technical matters.

3. Chapter III provides for the control of the export of drugs into British India. The provisions under this Chapter will accordingly be controlled by the Federal Government.

4. Chapter IV relates to control of the manufacture, sale and possession of drugs and contains the provisions which it is proposed should be enacted in manner as the power conferred by the provisions under section 20 of the Government of India Act, 1935, passed by the Federal Legislature. The executive power under Chapter IV will be exercised by Provincial Governments.

5. The First Schedule provides the standards to be required with respect to drugs and the Second Schedule the standards to be required with respect to drugs manufactured, sold or distributed in British India. The standards provided in the two Schedules are identical. The Central Government will have power to amend the First Schedule, but power to amend the Second Schedule will rest with Provincial Governments.

6. The Government of India have considered to what extent provision can be made to secure the maintenance of uniformity in standards and in other essential matters in which uniformity is desirable. They understood that it would be ultra vires of the Central Legislature to assign to any authority other than the Provincial Government authority conferred by the Bill in respect of matters falling within the Provincial legislative field. For this reason it is not possible to assign the power to the standards and to make rules to any single authority. In order to ensure that before any action is taken the consideration is given to the desirability of maintaining uniformity provision has been made in Chapter II for a single Federal Advisory Board, which both Central and Provincial Governments will be required to consult before modifying the standards set up by the Bill and before making rules under the Bill.
